PERFORMANCE EXHAUSTS

*Introduces: 3" Z06 Sport System
for Track and Street!*

TRACK 3" STREET

From the moment you slip behind the wheel of your CORSA Performance equipped Z06 and push the start button, you experience the difference. **The sound of power is unmistakable.** Over 500 horses, and you can hear every single one of them. Stab the throttle and 427 cubic inches of race bred technology surges under the hood and thunders through **3 inches of military grade 321L stainless steel** exhaust. Your Z06 is one of the elite, a world class sports car, and now it sounds like one. Now throttle up and uncork an **extra 10 horsepower and 14 lb/ft. of torque to the wheels**, courtesy of CORSA, while reveling in the race car sound of YOUR Z06. This is it, you can feel it in your soul as the car gathers speed, this is what a Corvette is about. Power, Performance and Sound; sound with an attitude and style; head-turning sound and style. Drop the throttle and you're at Le Mans, Daytona or Sebring. It's all good! You're living the dream!

Now that the car is at speed you've noticed another difference, something that only CORSA Performance exhausts deliver. It's remarkably quiet INSIDE the car. Sure you can hear the incredible power pulsing through your Z06, and it's obvious from the envious looks around you that others have noticed it too. But inside; how could it be so reserved, so refined? How long has it been since you could actually listen to your stereo in the car and enjoy it, or talk to the person sitting right next to you? A true performance exhaust that is refined and respectful of music and conversation. It's

amazing! All this great power, awesome performance sound and still NO interior DRONE all thanks to CORSA's patented Reflective Sound Cancellation™ technology. CORSA truly redefines performance exhausts and the all new Corvette Z06, and elevates both to an all new world standard. Unlock your car's true potential!

CORSA's patented exhaust technology, premium materials and hand-crafted construction make your dreams a reality. It's visceral. Experience the CORSA difference...

Track/Street System Features:

- Instant, uncorked sound at start up.
- RACE CAR like sound at full throttle.
- 22% increase in flow over stock with valve open. (CORSA=840.5, STOCK=691.5)
- 171% increase in flow over stock with valve closed. (CORSA=840.5, STOCK=310.0)
- More Torque & HP, especially below 4000 rpm.
- Quiet enough at cruise for good conversation & music.

The CORSA Distinction No Other Exhaust Manufacturer Delivers All Three:

NO RESONANCE/DRONE

due to our patented Reflective Sound Cancellation™ (RSC™) technology; your exhaust is whisper quiet at highway speeds.

Increased Horsepower and Torque

resulting from a straight-through, nonrestrictive design; increased flow and less backpressure.

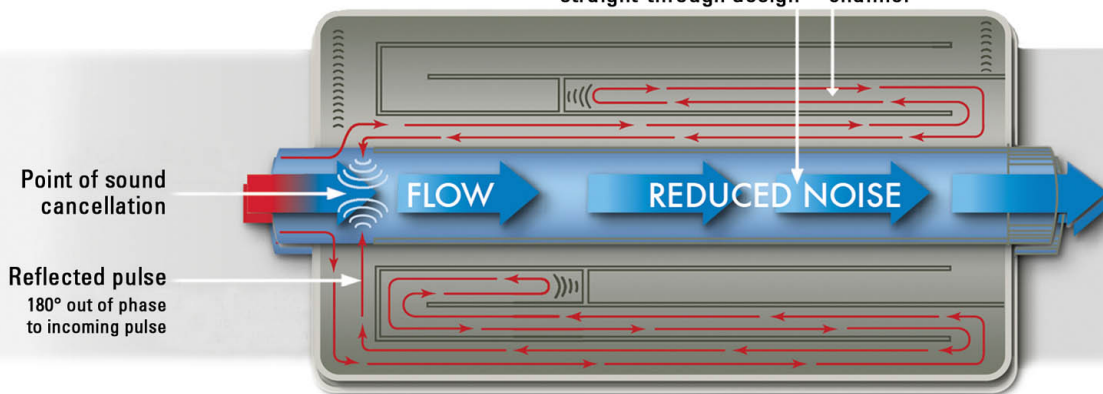

Great Performance Sound

we tune in the good sounds and cancel the bad, without the use of baffles or steel wool packing material.

CORSA'S Patented Technology Reduces Cockpit Drone.

REFLECTIVE SOUND CANCELLATION
RSC
TECHNOLOGY

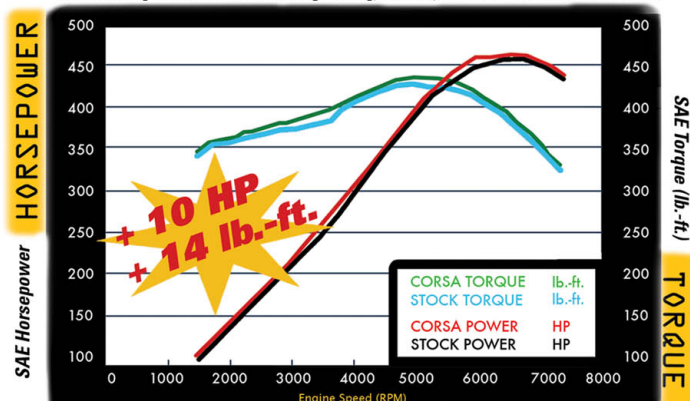

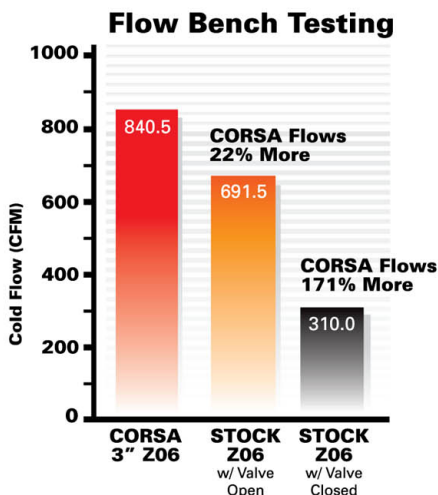

Non-restricted straight-through design Low frequency channel

More Flow, HP & Torque!
